

The Pennsylvania Revenue or Relief Bill, which the Governor of the State had vetoed, has passed both branches of the legislature by a sufficient majority to make it a law without the approval of the Governor.

This is the sixth or seventh bill which has passed the Legislature the present session and been vetoed by the Governor. He must be a very wise man to know so much more than the Representatives of the people! We are glad to see this indecision in the Legislature, let the merits of the case be what they may. The Governor's own friends could not stand his tyranny and boldness and voted for the bill.

The Philadelphia Inquirer states the following to be the principal features in the bill.

It provides in the first place, for a loan of \$3,000,000, redeemable in five years, and bearing an interest of five per cent. All the banks of the State, except four, which are not subject to a tax upon their dividends, are to subscribe to this loan in amounts proportioned to their respective capital; and these banks may pay for the loan thus taken, in \$1, \$2 and \$5 notes; but not more than one fourth of the latter. The aggregate issue of small notes, or \$1 and \$2 notes, will be \$2,325,000; and the banks issuing these notes are obliged to receive them for debts and on deposit; but the deposits are payable in the same description of currency, &c. The notes are redeemable, not in specie, but in State stock at par; and only then, when presented in sums of \$100 or upwards."

**GREAT FIRE IN NEW YORK**

ESTIMATED \$400,000 WORTH OF PROPERTY DESTROYED. From the New York Journal of Commerce.

After a long period of total exemption from fires, our city was visited last night with one which occasioned a heavy loss of property.

Soon after midnight the four story store No. 146, Pearl street, East side, fourth building south of Wall street, was discovered to be on fire, and in a few minutes the flames burst furiously from the roof and rear, where was a small open area, which gave them access to the stores Nos. 114 and 112 Water street, both of which, as well as that in which the fire originated, were entirely destroyed with most of their contents. Also the stores Nos. 148 and 144, Pearl street, next adjoining 146—the wind being moderate from the Northeast. Total, five stores, viz: three on Pearl street and two on Water.—All of them were four or five stories high.

The battle was admirably well fought, but the fire made such progress before it was discovered, that nothing but the thorough manner in which the stores were built, in addition to the efforts of the firemen, prevented an extensive conflagration. We need not inform our city readers, that the ground where this fire occurred, was burnt over by the memorable conflagration of 1835; which was taken as a sufficient hint to build with some little regard to safety. Consequently the main walls of all the stores burnt are still standing.

**FURTHER PARTICULARS.**

The fire this morning was even more destructive than we represented it to be. The total loss of property is probably not far from \$350,000, of which about \$75,000 is covered by insurance, distributed more or less, among nearly all the insurance offices in this city, and some in other States. The following is as correct a statement as we have been able to obtain, of the amount of loss, and the amount by which it was covered.

Estimated loss.	Insurance.	
Richards, Bassett & Aborn,	\$35,000	\$25,000
dry goods,		
Charles Cochran, lace,	90,000	65,000
Wiley,	5,000	5,000
Cottin, dry goods,	40,000	40,000
W. Tuttle, dry goods,	25,000	25,000
Sanford, shoes,	10,000	partly insured
Shellen & Co., dry goods,	15,000	15,000
Howard & Co., dry goods,	40,000	40,000
H. Howard, dry goods,	40,000	40,000
W. Rust, Drugs,	15,000	3,000
dry goods, say	35,000	not known.
\$355,000	\$258,000	

Some other losses, not ascertained, but not to a large amount, are not included in the above schedule.

The insurance companies, upon whom this calamity chiefly falls, are the better able to bear it, having, for more than a year past, been receiving good premiums, with comparatively small losses.

**Dr. D. H. DIXON.** On Wednesday last, we announced the marriage of Dr. D. H. Ely, which took place on the evening previous, and the reception of a large party. To-day we are called upon to announce his death! Married on Tuesday night and died on the following Sunday noon (yesterday). He had recently opened an apothecary's store—which is one of the neatest and best arranged in the State. Dr. Ely was an intelligent and agreeable young gentleman and although he had been long a resident among us, he had succeeded in winning the favorable regards of very many of our citizens. We seem in these days to be afflicted with unusual frequency of the uncertainty of life. May the admonitions have the effect intended, of teaching us that "it is not all of life."

[New Haven Palladium, April 22.]

**EMIGRATION TO THE UNITED STATES.**—It is stated that letters from Amsterdam and Havre announce an immense emigration from the continent the coming year; at least 10,000 are expected to embark in April and May; some of them have already arrived. A large party went up a few days ago to occupy lands in Delaware county, in this State, preferring the healthy highlands of the middle of this State to Illinois and Indiana. Great numbers are also making at Havre to forward to America. A late Liverpool paper says: "There are thirty vessels in the London St. Catharines, New York, Canada and New Zealand. In the latter, too, there is a great move among the people. Some of the most respectable of the middle class of farmers, and many manufacturers residing in the neighborhood of Glasgow, are about to transfer their fortunes in the United States."

[N. Y. Tribune.]

**INDIANA ELECTION.**

The additional returns from this State confirm the election of two Whigs in the Madison and Dearborn districts, in place of two Loco Focos, John Carr and Thomas Smith. It is also highly probable that Wallace, Democrat, is elected in the Marion district in the place of W. W. Wick, the late Loco Foco member. The Indianapolis Journal says:

"We have heard nothing except from this District, and but little from this, but enough to insure the election of David Wallace, the Administration candidate. This county (Marion) has given him about 300 majority. Mooresville, in Morgan gives an Administration majority of 121, and Plainfield, in Hendricks county, 175.

Judging from the present returns, Wallace's majority will not be less than 1,000; and we should not be surprised if it should reach 1500."

These districts were all represented in the last Congress by Loco Focos, and the result of the election now is a Whig gain of three members. From the other four districts we have not returns; but we can hardly suppose it doubtful that Messrs. Profit and Lane, (Whigs) are reelected, and that a Whig is chosen in Raritan's district.—The report of the death of Mr. Lane was erroneous. The only district therefore, which may be regarded doubtful, is the one last represented by Mr. Davis, (L. F.) and where there was more than one candidate. The opinion among the better informed Whigs was that Thompson (W.) would be elected. This would give us the entire delegation.—Atlas.

Mr. Van Buren, after lingering for weeks about New York, playing the politician in a small way, has finally returned to Kinderhook. Welding, as he now does, a broken wand, the 'Magician' no longer attracts. The Evening Journal says he is canvassing for a Tammy Hall Delegation in favor of his nomination for Governor. But the party will not take him. He has rode them long enough. He must content himself hereafter in playing the 'Dandy' at Saratoga during the Summer and burrow up in the Winter.—N. Y. Express.

**KENTUCKY ELECTION.**

The Republicans of noble democratic Kentucky have won a noble victory. They have swept the State by a majority varying little from thirty thousand, and have chosen eleven of the 13 members of Congress.

The following is the general result of the election for Congress.

1st District, Linn Boyd, reelected.
2d do Philip Triplett, reelected.
3d do J. R. Underwood, reelected.
4th do B. W. Owens, new mem.
5th do J. B. Thompson, reelected.
6th do Willis Green, reelected.
7th do John Pope, reelected.
8th do James C. Sprigg, new mem.
9th do John White, reelected.
10th do T. F. Marshall, new mem.
11th do L. W. Andrews, reelected.
12th do Garret Davis, reelected.
13th do W. O. Butler, reelected.

All Democrats, except the first and last of the list, who are Loco-focos.

**THE ST. LOUIS TRAGEDY.** The St. Louis Republican of the 30th ult., contains the following:

"The city has been full of reports as to the developments said to have been made concerning the tragedy of Saturday night the 15th inst.—Thus far every thing has, properly been conducted in secret, and as they yet are in a very imperfect condition, we do not feel at liberty to give even the rumors which are afloat. In a few days the public will probably learn all the facts, and in the meantime they may rest assured that nothing will be left undone to secure every avenue of escape."

A St. Louis correspondent of the N. Y. Express, under date of the 29th ult. gives the particulars of those "reports," as they are called by the Republican in the letter here subjoined:

St. Louis April 29.

Some developments have already been made which it is thought, will lead to the detection of the wretches who produced the tragedy of the 17th in the banking house of Messrs. Collier & Pettus. A few days since, a free negro, in a drunken fit at Alton, disclosed that he knew all about it. He was taken possession of, and subsequently disclosed that the horrid deed was perpetrated by four negroes; one or two of them belong here one to Cincinnati, and the other and leading spirit to N. Orleans. Measures have been taken for the arrest of all of them. They are all slaves but one or two.—The informant has given a particular account of the manner of the murder; the particulars of which will appear in the papers here as soon as the officers are satisfied that their publication will not interfere with the arrest.

I understand that he says that Mr. Baker was killed by a blow over the head with a bar of iron, struck by the slave from New Orleans. Weaver was struck over the head several times with a bowie knife, but fought manfully, having discharged both his pistols without effect; finally they got him down, and drove a warping spike through his head; yet fearing that he was not dead they struck his head with a crow-bar. After a great many fruitless efforts to get into the vault of the banking house, they set fire to the house in various places and fled.

The feeling in the community here is intense, and the only apprehension is, that when the culprits are secured the indignation of all may burst out in some uncontrollable act of violence. I hope it may not be, and I know that every thing will be done by the legal authorities to stay it. Officers have been despatched in pursuit of those parties, who are absent from the city.

**Runored Duel.**—The Louisville Gazette of the 2d inst., contains the following paragraph:

"It has been mentioned here for several days past, that R. Wickliffe, Jr., and C. M. Clay Esqrs. of Lexington, had crossed the Ohio at some convenient point, for the purpose of ending some personal feud by an appeal to arms. It was said that the Marshal of the State had made ineffectual efforts to intercept them. The result, it is feared, would prove fatal to at least one of them."

The Committee on Ways and Means in the N. Y. Assembly, estimate the total cost of the Erie Canal enlargement at \$23,284,931. Of this amount there has been expended \$3,526,250.

**VISITORS TO THE ANNUAL EXAMINATION OF CADETS AT THE MILITARY ACADEMY, WEST POINT.**

**FROST IS OUT.** A letter in the New Yorker, dated Whitehall, Tuscarawas Co. May 3, says—"We had a furious frost in this part of Ohio last night. I think the fruit generally is about used up. The season is very backward, and the wet weather continues. We farmers have a dull prospect before us, considering all things—including the scarcity of money."

**The Middlebury Free Press (Locofoco)** has been discontinued for want of patronage and prompt pay.

**Mitchell taken!**—The Montreal Herald says: Mitchell the American forger and member of Congress, has at last been captured by the Montreal Police.—Mitchell was taken at Long Point, a few miles from this city, and was foolish enough to attempt to throw above twenty thousand dollars into the St. Lawrence, a circumstance which could not have benefited him.

The Western People are insisting that Gen. HARRISON's ashes shall repose permanently at North Bend rather than at Berkeley. They say that the West was the home of his choice and affections, and that she nobly reciprocated them. We think Ohio and Indiana have a stronger claim to enfold the ashes of the 'noblest Roman, of our age than Old Virginia.

The Citizens—no, certain citizens—of Bond and Montgomery Counties, Illinois, have held meetings and resolved that they won't help pay the state Debt! or stand Taxation to pay it! Reason—the State had no constitutional right to incur debts! This is pleading the baby-act with a vengeance.

**A good price for bones.**—The St. Louis Penant, states that Mr. Kotch, of that city, has sold the bones of the animal which he calls Missouriian, for the sum of \$50,000.

**Great Freshet in Mississippi.**—By the Columbus Democrat of the 3d inst., we learn that immense damage has been sustained in Northern Mississippi by the heavy rains which have fallen there. All the low lands on the Yallahusha were entirely submerged, and at Columbus the river was about two miles wide. There had been no estimate of the extent of the losses sustained, but they were supposed to be very great on the plantations on that river, and on all the other large water courses.

The New Orleans Picayune of the 30th ult. says: "By an arrival at this port yesterday, we learn that the yellow fever is making dreadful ravages in the Island of Martinique."

The Boston Atlas says, that the election in the 5th district, to supply the vacancy in Congress by the resignation of the Hon. Levi Lincoln, has resulted in the choice of Mr. Hudson, the Whig candidate, by a majority of from six to eight hundred over Davis, loco.

The Madisonian gives the result of the late Census, from which it appears that the population of the United States now exceeds 17,000,000. The population of Vermont, according to the Census, is 291,48.

In Wheelock, 4th inst. after a short and distressing sickness, Rebecca L. Heath, consort of John E. Heath, and daughter of Peter W. Cochran, in the 36th year of her age.

In New Orleans, of consumption, April 26, Mr. Geo. P. Walton, of the firm of E. P. Walton & Sons, of Montpelier, aged 23. Mr. W. had been out of health for some two years, and it was on that account that he was at New Orleans to spend the winter. His brother, E. P. Walton, Jr. started for New Orleans about 10 days since. We feel to sympathize with the family on the death, under such afflictive circumstances, of one of its most promising and loved members.—Patriot.

The editor of the New Hampshire Telegraph acknowledges that he was imposed upon when he stated that a good woman in that vicinity had presented her husband with five children born on the same day. The editor says:

We made it on authority which we deemed satisfactory, and upon which it has been very generally believed here. We shall have to take off four of the little ones, but it is a good story at that. We don't intend to take off any more. The rest of the story is true."
